SURPRISED THE ALDERMEN.

MATOR DAVIS DID NOT WAIT FOR THE EXECUTIVE SESSION.

He Sent in Two Names for Confirmation Early in the Meeting, but They Were Returned to Him-Others Referred.

Mayor Davis surprised the members of upper house of the council last night sending in the names of R. H. Hunt, by sending in the names of R. H. Hunt, for comptroller, and L. F. McClure, for hoense inspector, before they had time to vote to go into executive session. After calling the roll the clerk picked up the nomination of Colonel Hunt and read it. President Tiernon gasped and exclaimed in a loud tone of voice: "Fil have to decide that nomination out of order until we go into executive session."

Adderman Shipnick jumped from his seat

Alderman Shinnick jumped from his seat and waved his arms widly and said: "Mr. President, I move that we send that nomination back to the mayor. I think he shows a great deal of nerve in sending it in here when he knows that this house has referred nominations for the office of

in here when he knows that this house has referred nominations for the office of comptroller and iteense inspector to one of its committees. He isn't treating this house with proper courtesy."

Adderman Phillips seconded Alderman Shinnick's motion and it was adopted, Alderman Phillips seconded Alderman of Mr. McClure was then read and the house also voted to send it back to the mayor, without being acted upon.

Ordinances providing for the establishment of sewer districts No. 157 to 163, inclusive, were referred to the public improvements committee, and after consideration of a number of ordinances construing contracts for the sprinkling of streets, the house went into executive session upon motion of Alderman Morgan.

During the executive session the public improvements committee reported upon the names of Henry M. Cook, nominated for comptroller, and Henry Franke, nominated for license inspector, which were referred to it a week ago. These names were rejected by a vote of \$ to 1, there being only nine members present. Alderman Johnston was the absentee. The mayor then sent in the names of D. W. Longwell for comptroller, and L. F. MecClure, for license inspector. Both were referred to the fire patrol committee of the house, which is composed exclusively of Alderman Shinnick.

The question of Dr. Coffin's authority to hold office was brought up by a resolution introduced by Alderman Morrison, asking the city counselor for an opinion as to the legality of the present board of health, of which the city physician is a member, ex officio. The resolution awa adopted and reads as follows:

"Resolved, That the city counselor report to this council whether the board of health is constituted in accordance with the city charter and by what authority the present board of health is constituted."

In the Lower House.

The gession of the lower house last night was the shortest on record. The budget contained but two or three documents, providing for street improvements. These were passed and the house adjourned, after having been in session only long enough for the cierk to read the ordinances and the speaker to sign them.

SGOGREN LEFT HIS WIFE.

nformation Concerning a Man Who Was Killed on the Air Line Early in March. On the evening of March 2 of this year a Swede named John Johnson Sgogren was killed by an Air Line train at First street and Lydia avenue. He was employed in the erection of a paper mill situated about a mile below the Heim brewery, and he roomed with his employer, A. Shonbeck, at the Philadelphia house, 1330 West Ninth street. He was badly mangled by the train, but singularly enough a bottle of whisky he happened to have in his pocket

street. He was badly mangled by the train, but singularly enough a bottle of whisky he happened to have in his pocket was unbroken.

When Coroner Bedford held an inquest over the remains on March 4 it was said that Sogren died a rich man and that he had a rich brother in Sweden. Some of Sogren's countrymen became Interested in this story of his wealth, so the matter was placed in the hands of British Vice Consul P. E. Burrough, who was informed that Sgogren had come from Osby, a town a few miles from Christianstadt, and that he was the heir to an estate left him by his mother, who, it was said, died about eighteen months ago. His brother, who was described as a professor and church organist at Osby, was said to be the only other heir. Further than that Mr. Burrough was given to understand that Sgrogren had received two large remittances of money from Sweden, no trace of which could be found here, though he seemed always to be well off. On looking up the matter more carefully, Mr. Burrough found ont that there is a British vice consul at Malmo, which is only a few miles from Osby. This gentleman's name is Theodore Flensburg and he has held his office fifty years. To him Mr. Burrough wrote all he had been able to glean from the dead man's letters, with the request that he look up Sgrogren's antecedents. Mr. Flensburg did so, the results of his work being told in a tetter received by Mr. Burrough yesterday.

It turns out that Sgrogren was born in the county of Christianstadt in 1812, and that in 1830 he deserted his wife and seven children and came to America. He left them in poverty, though he had his wife's consent to leave. His wife had not received a single word relative to him since his departure until Consul Flensburg concludes his letter to Mr. Burrough with the wife and children live, Consul Flensburg concludes his letter to Mr. Burrough with the statement that the story about Sgrogren being an heir and his having a brother is very probably false.

VERIFY TAX LISTS.

Treasurer Green Getting Ready to Receive the l'eople's Money.

City Treasurer Green is at work making out receipts and preparing everything for speedy work when the taxpaying senson opens up, one week from to-day. He is verifying the lists sent in by heavy property owners or agents, so that there need be no delay in collections and issue of re-ceipts when the day arrives. Mr. Green says that it would be of great assistance to him if persons having long lists to set-tle for would send in the lists in advance, as be could set the avertexate amount feat. tle for would send in the lists in advance, as he could get the aggregate amount footed up and then, when the taxpayer arrives, all he will have to do is to pay the money and get his receipts countersigned by Auditor Bishop. He calls attention to the fact that the 6 per cent rebate can only be allowed when the taxpayers go to his office to pay in May. If the lists are sent in early he will have the totals, less the rebates, all figured out, and there will be little, if any, delay. The receipts for every tract of land in the city are made up and signed but the rebates will not be allowed unless claimed in time, and it will be necessary for the people to have this done when they expect to pay their taxes. He is ready in the meantime to verify any list and add the taxes less the rebate.

A Boy's Fatal Ride.

A Hoy's Fatal Ride.

John Rease, the H-year-old step-son of M. O. Williams, of 608 East Fourteenth street, died Wesinesday night from injuries received by falling out of his little express wagon. He was riding down the hill at the corner of Cherry and Fourteenth street Wednesday afternoon, when he fell from the wagon, striking his head on the asphalt pavement and cutting his scalp severely. He did not seem to be hurt much, but upon lying down soon became unconscious. Dr. A. M. Crow was called in and found the boy still unconscious from concussion of the brain and paralysis of the left side. The funeral will be at 11 a. m. to-day at the home. The burial will be in Union cemetery.

INSURANCE COMPANY TAX.

How It Will Be Paid to the City Under the no taxes directly to the city. The new law, which passed under an emergency in the legislature, changes the entire method of collecting taxes from foreign companies doing business in this state. As the ex-tensions for the present year under the old law have not been made, Auditor Bishop will probably be notified this mornreceived yesterday by C. S. Palmer, second assistant city counselor, and the law de-partment will hold that it is in effect and that its provisions must be obeyed. The method in the past has been for all The method in the past has been for all such insurance companies, doing business in any city or county, to pay a tax on the net premiums collected in such city or county, based on the general rate fixed by ordinance and the county board. Then when this was paid, the amount was certified to the state assessment of 2 per cent on the gross receipts. Under the new law the companies will pay the 2 per cent only, there being no direct assessment in city or county. The amount thus raised will be apportioned to the cities and counties according to the school population.

It is estimated by those familiar with the working of the old law and the provisions of the new one that this city will be the gainer by the new plan in the sum of \$5.00, while the school population is the basis of apportionment, the money received will go into the general funds of the city, and not the school district funds. This city has about 20 per cent of the school oppulation of the state, and will be the gainer, as the tax will be levied on the gross receipts of the companies, and not the net premiums, as was the case under the old law. Auditor Bishop has not made his extensions, as the question of the taking effect of the new law was considered reason for the delay. The matter will be placed before City Counselor McDougal this morning, and notice served on Mr. Bishop not to put any linear and the contained the property and not to put any linear and the contained the property of t

at 8 o'clock this morning. The committee consists of City Physician Coffin, Health Officer Waring and Chief Hale, of the fire department. The order of the board calls for afteen teams for immediate duty. Quite a number of applications were filed with the clerk of the board yesterday, but the number is still smaller than the committee requires.

Dr. Coffin says that everything is in readiness for the work. He made arrangements with Wood Bros, vesterday for the dump and has also a proposition to buy garbage at 75 cents a ton from a reliable company. He says he will sell all that the company will pay for. He thinks that by this means the cost of the work, as contemplated by the order, will be carried by the sales. He says his proposition is not the one that the finance committee of the lower house has under consideration, but is made by a company amply able to carry out its undertakings. He will exercise his authority as city physician and health inspector to dispose of the garbage in this manner.

REGIMENTAL PROPERTY.

It is probable that Adjutant General Wickham will be in the city next Monday to meet the board of survey of the Third regiment and check up the regimental property. The visit is due to the recent requisition of Colonel Simonds for 20 new uniforms. General Wickham wrote to Colonel Simonds, calling attention to the cost necessitated by the requisition and the necessity that the regimental officers the necessity that the regimens show that they intend to put the regimen on a strong and effective busis. One Quickly Found Guilty.

When arraigned in the federal court yesterday morning to answer to the indictment against them, George S. McNabney pleaded guilty to the thrid count of the indictment against him charging that he had in his possession counterfeit coin, while his partner, C. B. McNeat, entered a plea of not guilty to the same charge. The trial of the latter was not long and the jury returned a verdiet of guilty on the third count of the indictment against him.

These are the men who were arrested down on Union avenue several weeks are on the charge of having counterfeit coin in their nosaession. At the time of their arrest they were found to have over \$1.389 in gold coin in the rooms they had occupied and it was all counterfeit very easily detected. The case here led to an important arrest by the officers at Marquette, Kas., by secret service officers.

Clutter Took to Flight.

Clutter Took to Flight.

N. P. Mentzer was taken before Justice Joyce yesterday to answer to a charge of assault with intent to kill, upon the person of Charles Clutter, of No. 8ee West Twelfth street. The trial was set for May 8, and the defendant was admitted to bail of \$300. Some time Wednesday night Clutter went to the house of Mentzel, which belongs to Clutter, and proceeded to eject Mr. Mentzer for non-payment of rent. This ejectment business was right in the line of Mr. Mentzer's especial accomplishments and he entered into the action with a zeal that boded no good for Mr. Clutter's personal appearance. He first armed himself with a large sized screwdriver and proceeded at once to turn the ejectment tables on Mr. Clutter, who beat a hasty retreat into the street and led the chase as far as Mentzer was pleased to continue it. The above action resulted yesterday. Mr. Clutter was not injured in any manner.

Report of the Police Court Clerk.

Police Court Clerk Williams last night completed his report for the last half of the month of April. It shows an increase of nearly \$200 in the amount paid into the city treasury, as compared with the last half of the month of April. 1894. The total number of cases tried was 250; convicted, 145; discharged, 61; dismised, 41; fines assessed, \$2,512,55; fines collected, \$755.65; cash seesed, \$2,512,55; fines collected, \$755.65; cash received from the work house, \$155.69; total amount of cash paid to city treasurer, \$769.85. New Sleepers on the Alton.

Beginning with April 1st, the Chicago & Alton railroad will run two sieepers daily in their "St. Louis Limited" between Kansas City and St. Louis. The two new sleeping cars assigned to this service are numed the "Majestic" and "Teutonic," after the two new White Star line Atlantic ocean steamers. Each year brings something new in the carbuilder's art and with cach improvement we exclaim that surely nothing more can be added. Viewing the new Alton sleepers, with their large, roomy compariments, drawing rooms, and perfectly appointed toilet rooms, one would imagine the builder possessed the lamp of Alladin.
